

MCSTAP Case Discussion Call-In Hour

Join us for a case presentation, conversation, and Q&A on the third Wednesday of every month (Note: the third Tuesday in August)
CME available

Next Date: Tuesday August 17, 2021; 12-1 p.m.

Topic: Extended Release Buprenorphine for a Patient Using Multiple Substances

Presenter: Laura Kehoe, MD, MPH
MCSTAP Physician Consultant

Learning Objectives

Upon completion of this activity, participants will be able to:

- Demonstrate an understanding of how to safely prescribe extended release buprenorphine for a patient using multiple substances
- Develop and learn how to implement a treatment plan for the use of extended release buprenorphine
- Understand various approaches to use to engage patients in the planning process

Target Audience

Primary Care Physicians, Internists, Family Practice Physicians, Nurse Practitioners, Nurses, and Physician Assistants
